

## VRSF-SERIES

The intelligent selection for a higher performance planetary gear-box at an ultimate value for standard duty motion control applications. The VRSF utilizes a lightweight aluminum frame, helical cut gear, and bearing span that provides the best level of precision and torque carrying capacity in its competitive class. The noise level generated by the VRSF is greatly reduced in comparison to any other competitor's economy class series that relies on spur gearing. The VRSF can be selected with one of three backlash levels – Standard backlash at 15 arc/min, Reduced backlash at 5 arc/min, and Precision backlash at 3 arc/min.

The series is available in four frame sizes (B, C, D, E) which has a peak output torque of 91 Nm across a variety of ratios. The VRSF is the ideal choice for OEMs manufacturing in larger volume and where accuracy is important and duty cycle is not overly extreme. The VRSF has been very popular in applications such as mobile robotics, standard packaging machinery, medical equipment, and other types of enclosed food processing applications.

## VRSF-SERIES

- Quiet operation: Helical cut gears contribute to reduced vibration and noise
- Different precision levels available in order to choose the best fit and value
- High rigidity & torque: Rigidity and torque capacity are achieved by using uncaged needle roller bearings
- Adapter bushing connection: Enables a simple, effective attachment to most servo motors
- Extremely light weight aluminum body to reduce excess weight from your equipment
- Additional features include NEMA output flange options

# VRSF-SERIES Inline shaft

## VRSF-Series– Features

- ① High-precision with backlash  $0.05^\circ$  (three arc-minutes), Low-backlash  $0.08^\circ$  (five arc-minutes) or less certified
- ② Smooth rotation and less pulsation due to utilizing helical gearing
- ③ Maintenance free with long-life grease, the sealed structure allows for mounting in any orientation
- ④ Every possible countermeasure against oil leakage taken: Including impregnation of the case and air leak test
- ⑤ IP65 rating extremely popular in washdown and food grade environments
- ⑥ Various optional features allowed, such as different coatings, plating, and grease varieties
